

Alerta De CALL-HOME CONNECTIVITY DOWN EN PROBE

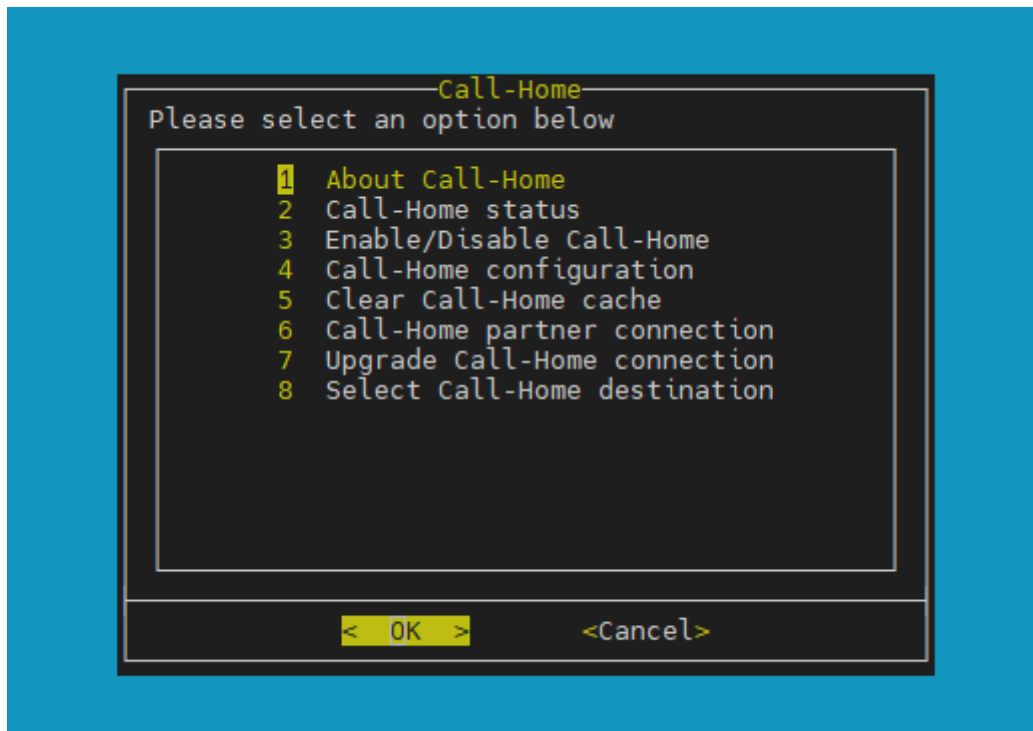

1. Entramos por SSH con la IP del Probe y seleccionamos **Appliance Admin**.

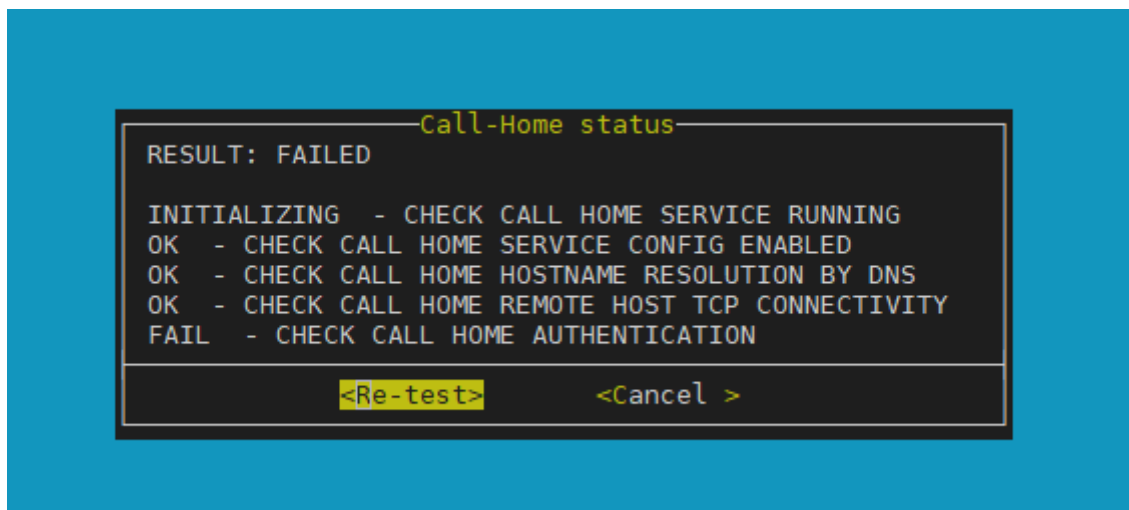

- 2 . Seleccionamos **Call-Home menu**.

3. Validamos el **Call-Home status**.

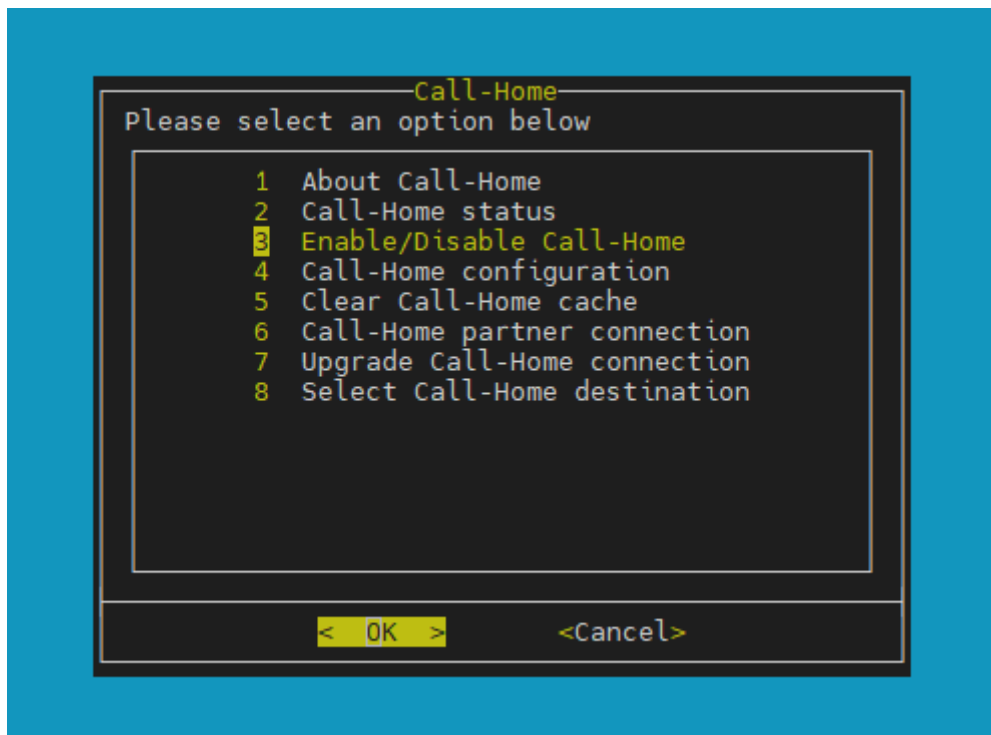

Error en el estado de Call-Home **FAIL**

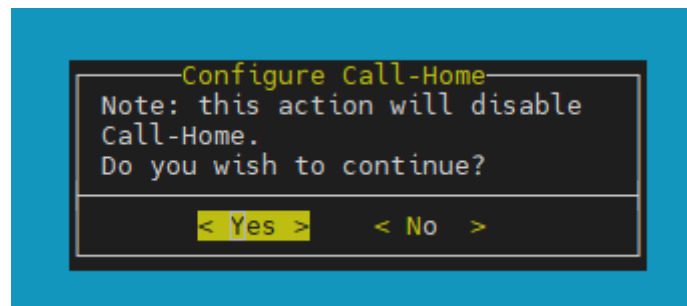

Si sale una con FAIL se debe de reinstalar

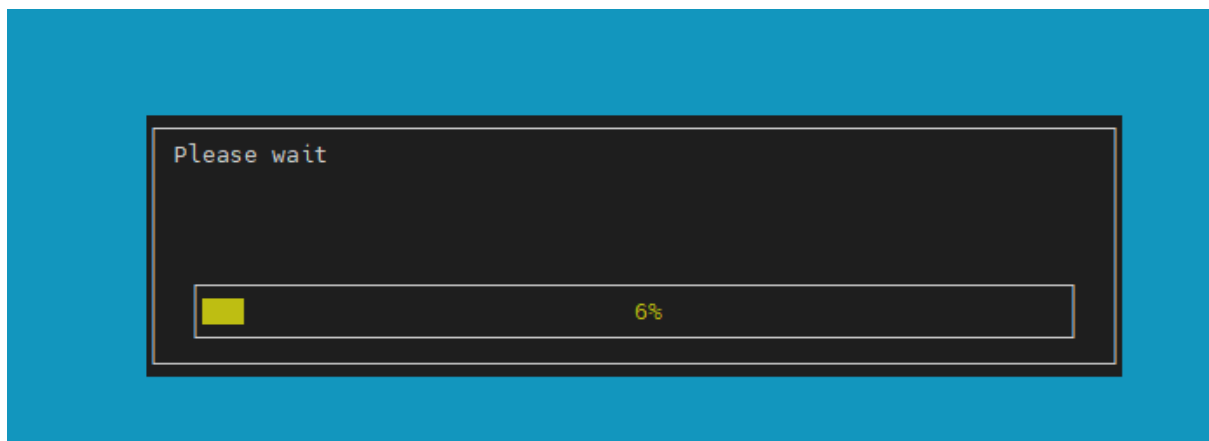

4. Debemos de **deshabilitar el Call-Home** para configurar nuevamente el destination

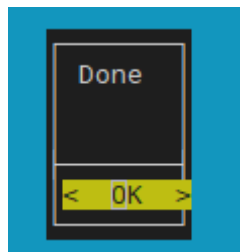

Le damos Yes

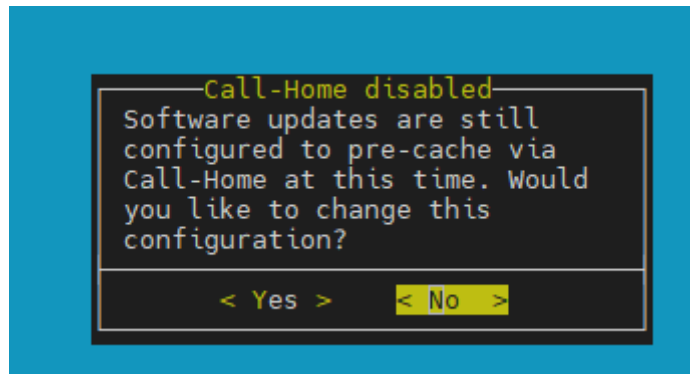

Deshabilitando el Call-Home

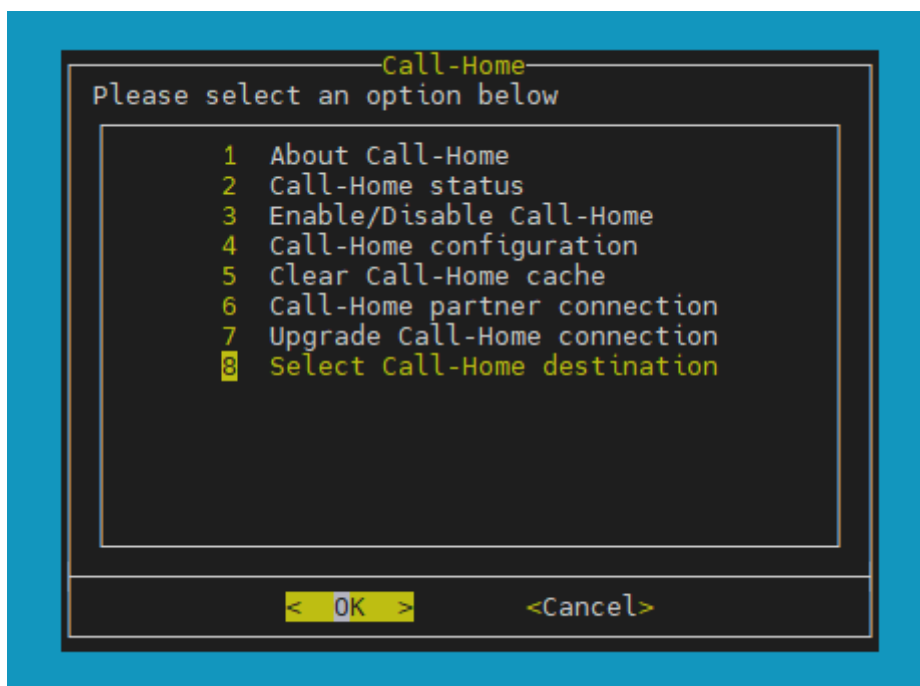

Todo Ok con la deshabilitación

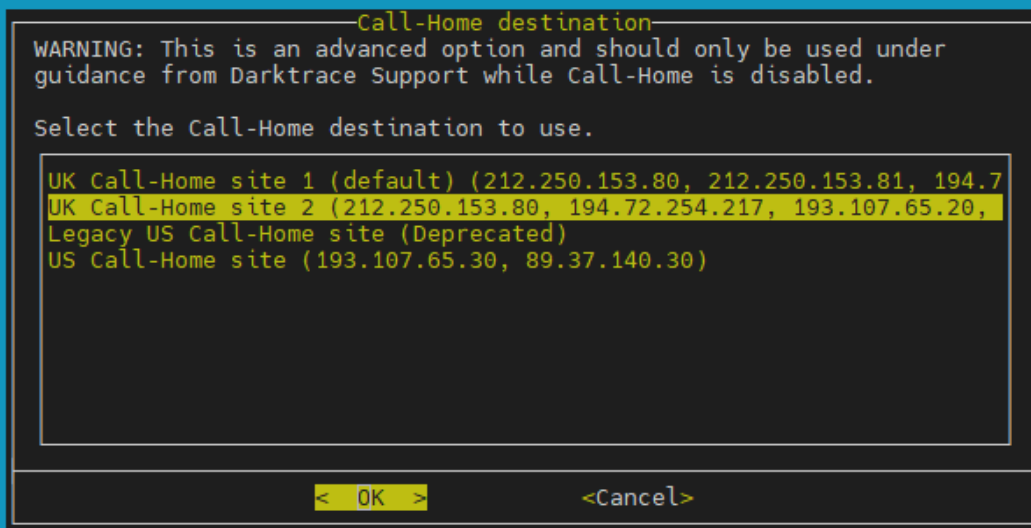

Seleccionamos no

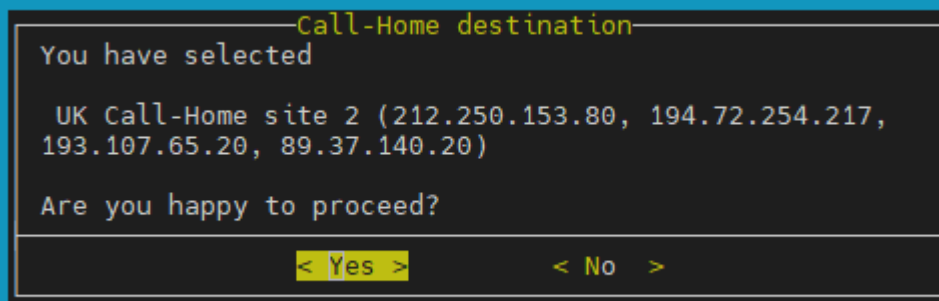

5. Seleccionamos Call-Home destination

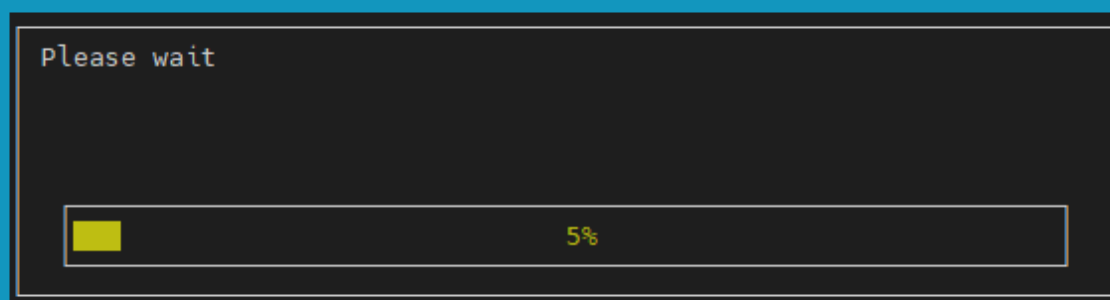

6. Seleccionamos UK Call-Home site 2

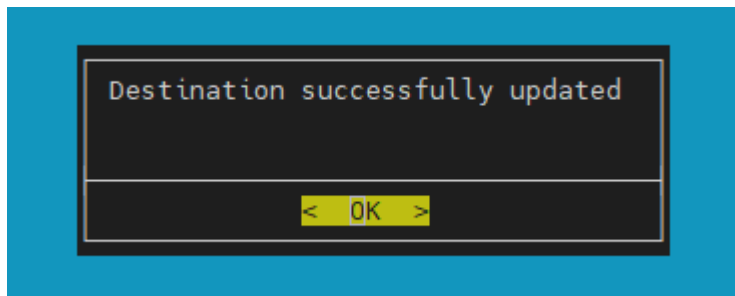

Damos en Yes

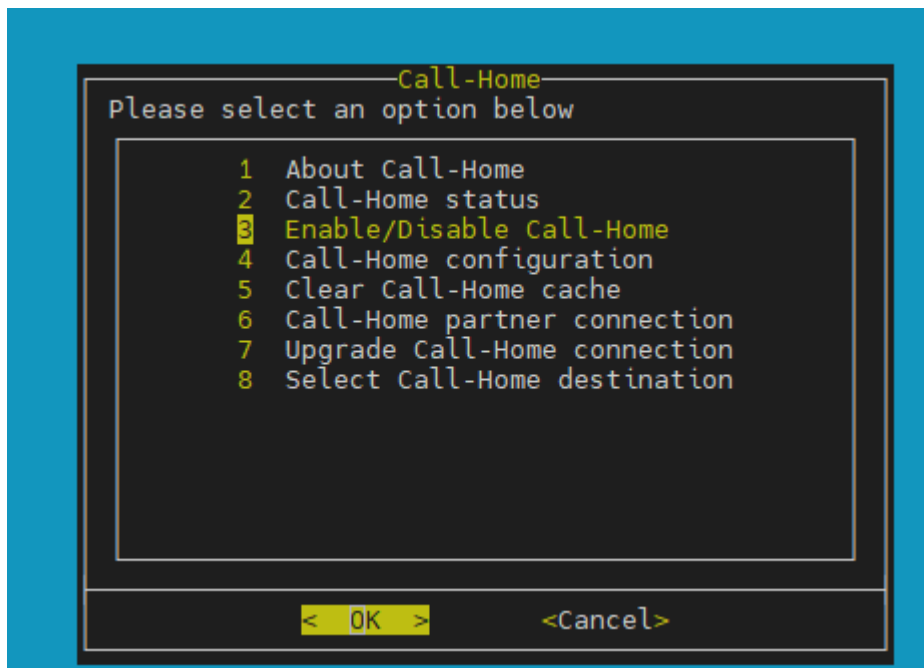

Conectando al nuevo destino

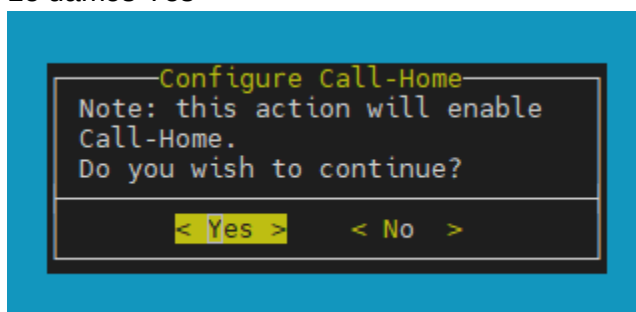

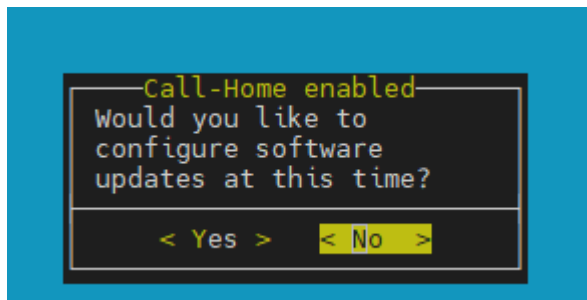

7. Habilitamos el Call-Home

Le damos Yes

Le damos No

Todo ok, resultado Exitoso Call-Home conectado.
